

Stick the hair of your foal / horse here according to the instructions

_____ Place the hair roots here

Paste between these two lines a piece of tape over the hair to hold the hair in place

Fold this form **carefully** and **do not press on the hair roots**, if they are damaged we will not be able to extract the DNA.

Do not paste the adhesive tape on the hair roots. We will not be able to isolate DNA from adhesive tape.

Example:
